

Addition and Multiplication Growth:

- All living healthy organisms GROW... healthy churches grow in influence, in addition or in multiplying.
- Desperate prayer, constantly expressing our dependence on God is needed for growth.
- It is essential to build Kingdom growth into the fabric of your Simple Church from the beginning, in your Purpose Statement/Core Values and pray for it whenever you gather ... we exist to influence more people with Jesus and His blessings... our fellowship is only one important factor in all of this. It all comes under our overarching purpose of worshipping our God.
- Everyone needs to be on the lookout as to how to influence more people e.g. a community activity in which to get involved, starting another group/church in another location which will attract other friends, releasing and promoting leadership giftings, etc.

A Question...

What are some creative ways to keep this imperative before your Simple Church?
